

The National Weather Service will present a

SKYWARN WEATHER SPOTTER TRAINING CLASS

Tuesday, April 10, 2018 at 6:00 p.m.
Spoooner Fire Hall Administration Building
1407 Front Street, Spooner

NOAA's National Weather Service Skywarn Training Program provides training to volunteers in the detection and reporting of life-threatening thunderstorms- those that contain large hail, damaging winds, and tornadoes. There are 1,700 Skywarn spotters across northeastern Minnesota & NW Wisconsin reporting to Duluth National Weather Service.

All are welcome and encouraged to attend!

NO REGISTRATION IS NECESSARY!
